ROCKNOLL'S 1942 ECONOMY CATALOG

This year's Rocknoll's Catalog will truly be an economy catalog in all respects. Uncle Sam has asked us to conserve paper, metals that go into printing and to limit our packing and shipping supplies to help swat the Axis. Therefore we are doing these things.

1. Cutting the size of our spring catalog.
2. Using our old cuts and pictures for illustrations.
3. Printing our catalogue on newsprint which is plentiful.
4. Offering our high quality goods with less description and fanfare than usual—but offering the same high quality.

In sending in your orders you too can help Uncle Sam by observing the following suggestions:

1. Send your order in early.
2. Send your spring requirement in one order if possible.

By following these suggestions we can assemble and ship your requirements in one package, saving packing paper, labor, transportation, coal, tires and fuel to be used to further the war effort.

WAR GARDENS — There are many thousands of workers who will spend long hours indoors in shops and factories this spring. There is no more healthful or beneficial recreation for them than some form of gardening. Plant some small fruits, some fruit trees, beautify your home with flowering shrubs, plant some flowering perennials or bulbs. Keep sane, keep your feet on the ground while you keep 'em Flying.

PRICES—For the most part our prices have not advanced. Where they have the amount is small. Of course, our costs have gone up like everyone else. To make up the difference we are not prepaying shipments this spring. This is the fairest way for you and us, as we used to hide the transportation costs in the price of the plants.

POSTAGE—Please add 15% for postage or tell us your closest express office.

MONEY BACK GUARANTEE — We guarantee safe arrival of all plants and that they will please you. Otherwise return them: at once, wrapped as they reached you and we will replace or refund your money as you wish.

EXPRESS SHIPMENTS—Everything feasible will be sent out Railway Express to you. This is the quickest, safest and usually the most reasonable way. All packages sent by express are insured.

GIANT BURBANK PLUM

HARDY CHRYSANTHEMUMS

There is no hardy flower grown that gives so much for so little. The newer varieties bloom from August on to meet the later kinds that are the glory of fall, flowering well even after heavy frosts. The hardy mums flourish from Maine to Florida and from the Atlantic to the Pacific in any open, well drained, sunny soil.

Hardy Mums are our personal Hobby. We have found several worthwhile new ones to add this year.
